Acronis

Summary

- Excellent capability to lead and manage a team with 4 years experience.
- Software Engineer with over 10 years experience in regions like Europe, Asia and Africa.
- 1 year experience with machine learning model development and prediction.
- Expertise in multiple sectors such as security, banking, agritech and education.
- Technical skills: Go, C#(.NetCore), Java(Spring boot, JPA), SQL(MSSQL, MySQL, PostgreSQL), Javascript(Angular, ReactJS, NodeJS), Docker, Kubernetes, RabbitMQ, Redis, Grafana, Prometheus, Kibana, Jenkins, Azure Cloud, Linode.
- Ongoing Msc. Computer Science and qualification Bsc. Information Technology.
- Certified Information Security Manager
- Excellent verbal and written communication skills in English and Swahili.

Experience

Senior Software Engineer | Acronis | Switzerland

Jan 2023 - Present

- Joined the Cloud backup team responsible for one of Acronis Cyber Protection products.
- My responsibility involves cloud data protection of Microsoft O365, protection for Google Drive, protection for Microsoft Teams services.
- This involved complex backup and restore of huge data to guarantee business continuity.
- Improving performance and fixing bugs in backup and restore of Microsoft O365, Google Drive and Microsoft Teams services.
- Technologies: **Golang, docker, kubernetes, MySQL, Postgresql, Grafana, Kibana, Prometheus and GCP, Azure Cloud.**

Development Team Lead | Software Group | Bulgaria**Oct 2019 - Dec 2022**

- My responsibility entailed; overseeing a team of 7 Kenya developers, managing developer resources for different projects, onboarding new colleagues, organizing training and mentoring junior developers, planning, estimation for work and code reviews.
- Involved in delivering Agency and Mobile banking projects in Africa.
- Technologies: **Javascript(NodeJS, ReactJS), docker, kubernetes, MSSQL, Azure Cloud**
- Skills: **Team Leadership and Project management.**

Senior Engineer & TDM | Software Group | Bulgaria**Nov 2018 - Dec 2022**

- Joined the development and integration team as a technical delivery manager(TDM). This involved ownership of a project; maintaining timelines, writing code, code reviews, technical engagements with clients, reviewing the requirements, documentations and reporting to regional managers.
- We did multiple projects by creating company reusable modules to deliver: mobile banking, CBS integrations, customer creation and account opening for agency transactions, biller payments, airtime top-up e.t.c (<https://github.com/softwaregroup-bg>)
- Technologies: **Javascript(NodeJS, ReactJS), docker, kubernetes, MSSQL, Azure Cloud**
- Skills: **Project Technical Leadership and Code Review.**

Development Team Lead | Software Group | Bulgaria**Jan 2018 – Nov 2018**

- My responsibility entailed; training the team, designing, development and implementation of bespoke web and mobile applications. This involved resource planning, agile scrum management, project roadmap development, code reviews and client meetings.
- Technologies: **Javascript(AngularJS, Angular2), Typescript, C#(.NETCore), PHP, MSSQL, MySQL, NOSQL.** (<http://mis.thesavix.org>)
- Skills: **Agile project planning, Product road mapping, Code review**

Software Developer | Software Group | Bulgaria**Oct 2014 – Dec 2017**

- Joined as a mobile and full stack developer in a bespoke team where we worked on tailored made software for savings groups, financial integrations and reporting.

- Involved in re-developing savings groups management information systems using microservices to make the application better and faster for Catholic Relief Services. Technologies: **Javascript(AngularJS, Angular2), Typescript, C#(.NETCore), PHP, MSSQL, MySQL, NOSQL.** (<http://mis.thesavix.org>)
- Contracted to work for 5 months on automated financial processes to improve efficiency and reduce cost. During this project I assumed the role of a software developer, business analysis, UX and UI, database developer and site reliability engineer. Technologies: **Javascript(Angular8, NodeJS), Typescript, MSSQL, C#(.NETCore 2).**
- Built dashboard portal for showing savings groups data for SavingsGroup in a map. This was built to show worldwide, regional, sub-regional and country level data for the savings group data in VSL Associates. Technologies: **Javascript(NodeJS, AngularJS), ASP.NET C#, MSSQL and XML.** (<http://mis.thesavix.org/Dashboard>)
- Developed a web offline application for SavingsGroup Project to allow offline capturing of data for savings groups. This site was built for the need of having an offline tool for field agents. Technologies: **Javascript(NodeJS, AngularJS), NOSQL(PouchDB), MSSQL, HTML5, Bootstrap, JQuery and XML.** (<http://mis.thesavix.org/Offline>)
- I was involved in maintaining VSL Associates Websites application, and making changes where necessary. Technologies: **Java(Android, JPA, Tapestry), SQL(MSSQL Server)** (<http://thesavix.org>, <http://vsla.net>)
- Involved in a savings group application called e-Recording. My tasks included changes to UI on the application and split funds within the applications. That is loan fund, other funds and social fund in separate functionality. Later on I worked on translation of both the mobile and web application to French, Portuguese and Kinyarwanda and integration with the Melinda Gates MSFP platform. Technologies: **PHP, MySQL, Android(Java)**

Software Developer Intern | Eclectics | Kenya

Jun 2014 – Sept 2014

- Contracted to develop an e-Growers web portal site for farmers to provide information throughout different cycles of plant growth. This model was adopted and used in Rwanda.
- Technologies: **C# (ASP.NET MVC), MSSQL and PhoneGap**

Software developer Intern | CNLS | Kenya**Jun 2013 - Aug 2013**

- Worked as an android developer in implementing offline soil sampling solutions for field agents and maintaining the web portal with back office features for management.
- Technologies: **Java, Android, C# (ASP.NET MVC), PHP and MSSQL.**

Education

University of East London, United Kingdom**2024 - Present**

Masters of Computer Science

Strathmore University, Kenya**2018**

ISACA Security Certification

Major – Certified Information Security Manager

Masinde Muliro University, Kenya**2010 - 2014**

B.Sc, Information Technology

Major – Software Development
